

<b>Product fiche according to Commission Delegated Regulation (EU) 811/2013</b>			
Model	IE24-CH100 TDCi IE24-CH100 SDCi		
Temperature application	°C	55	35
Declared load profile	Not applicable		
Seasonal space heating energy efficiency class	A+++ A+++		
Water heating energy efficiency class	Not applicable		
Rated heat output	kW	7	7
Annual energy consumption (space heating)	kWh	3714	3095
Annual energy consumption (water heating)	kWh	Not applicable	
Annual fuel consumption	GJ	Not applicable	
Seasonal space heating energy efficiency	%	158	196
Water heating energy efficiency	%	Not applicable	
Sound power level outdoors	dB	61	61
Operation only during off-peak hours	Not applicable		
Specific storage, assembly, installation or maintenance precautions	See user / installation manual		
<b>Warmer climate conditions</b>			
Rated heat output	kW	10	11
Seasonal space heating energy efficiency	%	194	266
Annual energy consumption (space heating)	kWh	2792	2150

<b>Product fiche according to Commission Delegated Regulation (EU) 811/2013</b>			
Model		<b>IE24-CH120 TDCi IE24-CH120 SDCi</b>	
Temperature application	°C	55	35
Declared load profile		Not applicable	
Seasonal space heating energy efficiency class		A+++	A+++
Water heating energy efficiency class		Not applicable	
Rated heat output	kW	8	9
Annual energy consumption (space heating)	kWh	4299	3546
Annual energy consumption (water heating)	kWh	Not applicable	
Annual fuel consumption	GJ	Not applicable	
Seasonal space heating energy efficiency	%	160	199
Water heating energy efficiency	%	Not applicable	
Sound power level outdoors	dB	61	61
Operation only during off-peak hours		Not applicable	
Specific storage, assembly, installation or maintenance precautions		See user / installation manual	
<b>Warmer climate conditions</b>			
Rated heat output	kW	10	11
Seasonal space heating energy efficiency	%	196	266
Annual energy consumption (space heating)	kWh	2769	2153

<b>Product fiche according to Commission Delegated Regulation (EU) 811/2013</b>			
Model	<b>IE24-CH140 SDCi</b>		
Temperature application	°C	55	35
Declared load profile	Not applicable		
Seasonal space heating energy efficiency class	A+++		A+++
Water heating energy efficiency class	Not applicable		
Rated heat output	kW	10	11
Annual energy consumption (space heating)	kWh	5302	4320
Annual energy consumption (water heating)	kWh	Not applicable	
Annual fuel consumption	GJ	Not applicable	
Seasonal space heating energy efficiency	%	157	199
Water heating energy efficiency	%	Not applicable	
Sound power level outdoors	dB	58	58
Operation only during off-peak hours	Not applicable		
Specific storage, assembly, installation or maintenance precautions	See user / installation manual		
<b>Warmer climate conditions</b>			
Rated heat output	kW	14	15
Seasonal space heating energy efficiency	%	198	267
Annual energy consumption (space heating)	kWh	3767	2981

<b>Product fiche according to Commission Delegated Regulation (EU) 811/2013</b>			
Model	<b>IE24-CH150 TDCi</b>		
Temperature application	°C	55	35
Declared load profile	Not applicable		
Seasonal space heating energy efficiency class	A+++		A+++
Water heating energy efficiency class	Not applicable		
Rated heat output	kW	11	11
Annual energy consumption (space heating)	kWh	5693	4624
Annual energy consumption (water heating)	kWh	Not applicable	
Annual fuel consumption	GJ	Not applicable	
Seasonal space heating energy efficiency	%	158	200
Water heating energy efficiency	%	Not applicable	
Sound power level outdoors	dB	57	57
Operation only during off-peak hours	Not applicable		
Specific storage, assembly, installation or maintenance precautions	See user / installation manual		
<b>Warmer climate conditions</b>			
Rated heat output	kW	15	16
Seasonal space heating energy efficiency	%	200	270
Annual energy consumption (space heating)	kWh	4040	3176

<b>Product fiche according to Commission Delegated Regulation (EU) 811/2013</b>			
Model	IE24-CH190 TDCi IE24-CHR190 TDCi		
Temperature application	°C	55	35
Declared load profile	Not applicable		
Seasonal space heating energy efficiency class	A+++ A+++		
Water heating energy efficiency class	Not applicable		
Rated heat output	kW	14	15
Annual energy consumption (space heating)	kWh	7288	5883
Annual energy consumption (water heating)	kWh	Not applicable	
Annual fuel consumption	GJ	Not applicable	
Seasonal space heating energy efficiency	%	160	202
Water heating energy efficiency	%	Not applicable	
Sound power level outdoors	dB	58	58
Operation only during off-peak hours	Not applicable		
Specific storage, assembly, installation or maintenance precautions	See user / installation manual		
<b>Warmer climate conditions</b>			
Rated heat output	kW	20	21
Seasonal space heating energy efficiency	%	200	267
Annual energy consumption (space heating)	kWh	5178	4042

<b>Product fiche according to Commission Delegated Regulation (EU) 811/2013</b>			
Model		IE24-CH240 TDCi IE24-CHR240 TDCi	
Temperature application	°C	55	35
Declared load profile		Not applicable	
Seasonal space heating energy efficiency class		A+++	A+++
Water heating energy efficiency class		Not applicable	
Rated heat output	kW	18	18
Annual energy consumption (space heating)	kWh	9334	7644
Annual energy consumption (water heating)	kWh	Not applicable	
Annual fuel consumption	GJ	Not applicable	
Seasonal space heating energy efficiency	%	155	195
Water heating energy efficiency	%	Not applicable	
Sound power level outdoors	dB	64	64
Operation only during off-peak hours		Not applicable	
Specific storage, assembly, installation or maintenance precautions		See user / installation manual	
<b>Warmer climate conditions</b>			
Rated heat output	kW	25	26
Seasonal space heating energy efficiency	%	194	258
Annual energy consumption (space heating)	kWh	6813	5392

<b>Product fiche according to Commission Delegated Regulation (EU) 811/2013</b>			
Model		<b>IE24-CH300 TDCi IE24-CHR300 TDC</b>	
Temperature application	°C	55	35
Declared load profile		Not applicable	
Seasonal space heating energy efficiency class		A++	A+++
Water heating energy efficiency class		Not applicable	
Rated heat output	kW	21	22
Annual energy consumption (space heating)	kWh	12541	10822
Annual energy consumption (water heating)	kWh	Not applicable	
Annual fuel consumption	GJ	Not applicable	
Seasonal space heating energy efficiency	%	137	169
Water heating energy efficiency	%	Not applicable	
Sound power level outdoors	dB	69	69
Operation only during off-peak hours		Not applicable	
Specific storage, assembly, installation or maintenance precautions		See user / installation manual	
<b>Warmer climate conditions</b>			
Rated heat output	kW	30	32
Seasonal space heating energy efficiency	%	165	216
Annual energy consumption (space heating)	kWh	9564	7760
